SECURE FUTURE

# Company Leadership

## Ronald Cartey CEO

With a successful consultancy career and over twenty-five years experience in strategic management and leadership coaching making Ron Cartey the ideal CEO to move the company forward.

With extensive corporate experience linked to his successful Business Development expertise in the crypto space, Ron is well equipped to provide understanding and insight to the world of the blockchain and cryptocurrencies. In addition, with an international career spanning such as countries like South Africa, UK, Europe, Malaysia, Thailand, Singapore, Australia and New Zealand Ron is charged with building and developing the corporate reach and working with international partners to achieve the corporate goals.

# Introduction

Zater Capital is an AI-powered trading ecosystem designed to revolutionize cryptocurrency trading through advanced automation.

Our platform integrates machine learning and blockchain technology to create a community-driven wealth-building experience.

Since 2020, Zater Capital has managed digital asset portfolios for institutional clients and family offices.

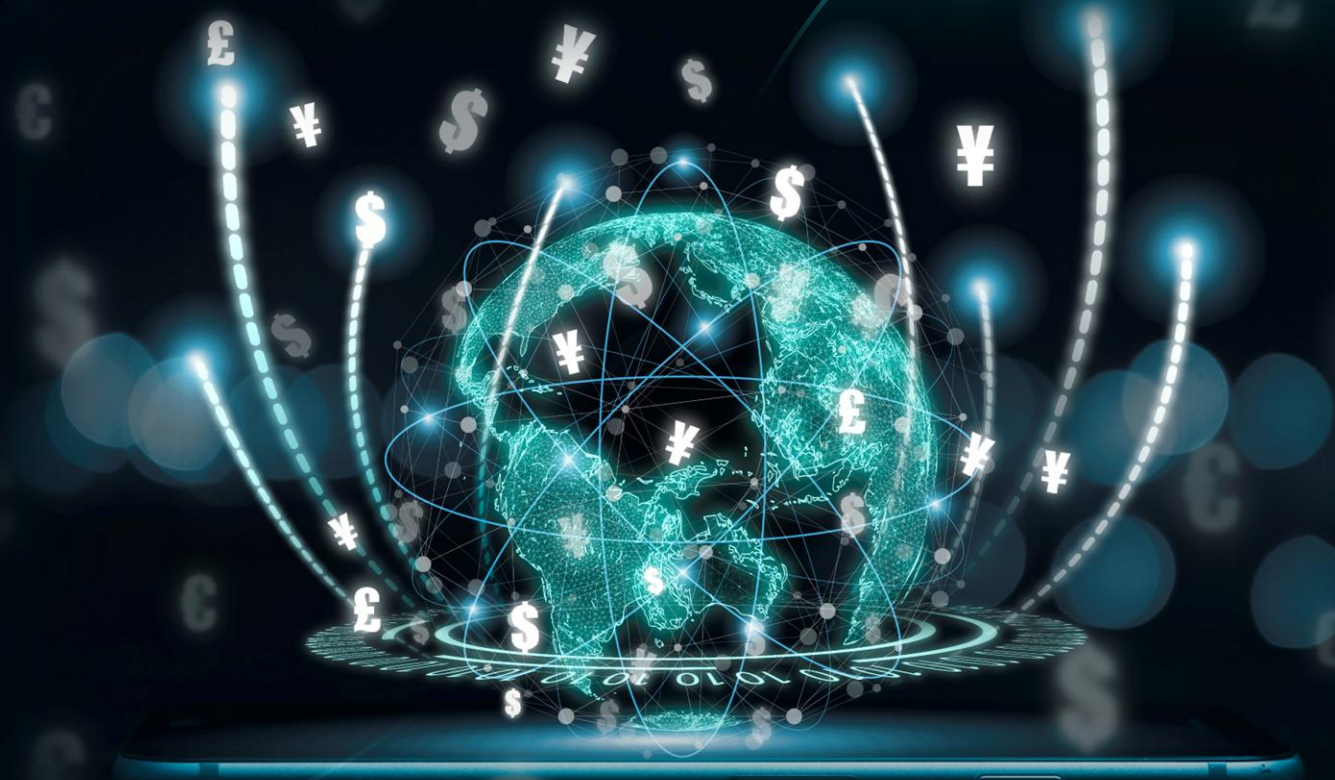

In 2025, the company went global to provide investment opportunities for all, regardless of financial capacity.

Members can earn through trading bot licenses, and passive income opportunities within the ecosystem.

Zater Capital is not just a bot provider but an investment ecosystem where users own, trade, and monetize AI-driven financial technology.

# Our Mission And Vision

At Zater Capital, we aim to democratize AI-driven trading, providing individuals with access to institutional-grade trading bots.

Our focus is on transparency, profitability, and financial independence, all within a sustainable structure to become the world's leading AI trading company by integrating

Advanced Quantum  
Computing

Blockchain  
Technology

Distributed Ledger  
Technology (DLT)

Decentralized  
Governance

We are dedicated to driving innovation and value creation in the rapidly evolving Blockchain and Distributed Ledger Technology (DLT) ecosystem. Our investment strategy focuses on identifying and supporting high-potential startups that specialize in the development, infrastructure, and application of Blockchain and DLT solutions. By targeting companies at the forefront of decentralized technologies, we aim to deliver sustainable, long-term returns for our investors while advancing the adoption and utility of these transformative systems.

# Investment Focus

Our portfolio centers on startups operating within the Blockchain and DLT industry, with a particular emphasis on

## DLT Development

Companies building cutting-edge distributed ledger solutions, leveraging cryptographic techniques to ensure secure, transparent, and immutable transaction records.

## Infrastructure Services

Firms providing the foundational tools, platforms, and protocols that power private and enterprise-grade blockchain networks.

We prioritize investments in private blockchain networks, where access is restricted and transaction rights are governed by predefined user clearance levels. This focus ensures enhanced security, scalability, and compliance

key attributes for enterprise adoption and real-world use cases.

# What is Blockchain DLT?

Blockchain is a type of Distributed Ledger Technology (DLT) that records transactions across a decentralized network of participants. Each transaction is secured using cryptographic signatures, known as "hashes," which link data into an unalterable chain. This immutability prevents tampering or duplication, offering unparalleled trust and integrity.

Unlike public blockchains, our investments target private DLT systems, which provide controlled access and governance, making them ideal for industries requiring privacy and regulatory alignment.

# Our Approach

We employ a rigorous due diligence process to identify startups with strong technical foundations, visionary leadership, and clear market fit. Our team combines deep expertise in blockchain technology with a disciplined investment philosophy, ensuring that each portfolio company has the potential to shape the future of decentralized systems.

We actively support our investments through strategic guidance, network access, and operational resources, fostering innovation that drives both financial returns and technological progress.

# Investment Thesis

The Blockchain and DLT sector represents a paradigm shift in how data, value, and trust are managed across industries, from finance and supply chain to healthcare and beyond. By focusing on private blockchain networks and infrastructure, Zater Capital taps into the growing demand for secure, scalable, and enterprise-ready solutions.

Our strategy is built on the belief that these technologies will form the backbone of tomorrow's digital economy, delivering outsized returns for early adopters.

# Zatercapital Operates On A Multi-revenue Model

ZaterCapital ensures sustainable earnings for both the company and its members. Our diversified income streams provide multiple opportunities for financial growth.

**Trading Bot Licenses** Users purchase AI-powered bot licenses for automated trading across various markets.

**Profit-Sharing Model** Earn passive income from the successful trades executed by your AI trading bots.

**NFT-Based Bot Ownership** Users can buy, sell, and trade AI bot licenses as NFTs on our marketplace, ensuring true asset ownership.

**Tournaments & Rewards** Participate in monthly AI trading tournaments and win cash prizes, bot upgrades, and exclusive trading strategies.

# NFT Bot Ownership & Marketplace

Zater Capital AI will soon introduce a revolutionary concept of tokenized bot ownership, allowing users to own, sell, rent, or upgrade their AI bot licenses as NFTs.

## What is NFT Bot Ownership?

- ▶ Each AI bot license is minted as an NFT on a blockchain, proving authenticity, ownership, and exclusivity.
- ▶ Users can sell their NFT licenses in the Zater Capital AI marketplace.
- ▶ Bots are limited in supply, ensuring value appreciation over time.

## NFT Marketplace Features

- ▶ **Buy & Sell Bots:** Users can trade AI bots on the marketplace at dynamic prices.
- ▶ **Rent AI Bots:** Users who don't want to trade full-time can rent their bot licenses to others for a fee.
- ▶ **Limited-Edition Bots:** Special AI bots with unique trading strategies will be released as rare NFT collections.

## Benefits of NFT Bot Ownership

- ▶ **Asset Appreciation:** AI bots become valuable digital assets over time.
- ▶ **Liquidity:** Users can sell or rent their bots whenever they want.
- ▶ **Smart Contract Security:** All bot transactions will be secured via blockchain smart contracts

# Tournaments & Engagement System

Zater Capital AI is designed to be interactive and rewarding, with AI trading tournaments and achievement-based engagement programs to keep users motivated.

# Zater service profile and philosophy

The size, complexity and constant change of the cryptocurrency markets place ever-increasing demands on crypto asset management. In this environment, only those who consciously focus on their core competence and pursue a clear philosophy can achieve lasting investment success for their clients.

We do not see ourselves as a generalist for all global assets classes, but as a specialist for clearly defined segments and investment strategies. Our investment philosophy rests on five pillars and serves the realisation of two clearly defined goals, meeting the specific needs of our clients and ensuring attractive and stable return and risk profiles in all our mandates.

# Legal Registration & Licenses

ZaterCapital is a legally registered and fully compliant fintech company.

Issued by Hong Kong's Securities and Futures Commission (SFC).

## Company Registration

ZaterCapital Ltd. is officially registered in Hong Kong, a global hub for fintech and blockchain innovation.

# Why Choose Zater

## Fintech & AI Trading License

Issued by Hong Kong's Securities and Futures Commission (SFC).

## AI-Powered Trading

Automate your trades with cutting-edge AI algorithms for maximum efficiency.

## Passive Income

Earn through trading profits, referrals, and commissions, creating multiple income streams.

## The Collective Strength

Envision your deposit merging with others [trading pool]. Empowering our advanced strategies for better returns.

## Simple and intuitive user interface
